

# Simplify Enteral Supply Ordering and Inventory Management

**QuickRounds® helps you simplify your enteral supply ordering, so you can focus on resident care.**

## Increase Ordering Speed and Accuracy

- Order enteral products for your residents online, including piston flush kits, pump/spike sets, gravity bags, g-tubes, formula, pumps, proteins and fibers
- Simple monthly refill requests help with inventory management, so you can eliminate stock outs
- Shortage request feature allows you to order and track products

## Enhance Savings Opportunities

- Track product usage to minimize utilization
- Track patients from Medicare Part A episode to eligibility for Part B benefits
- Access reports to help control your budget and track over-spend

## Getting Started is Easy

Simply sign up with QuickRounds to set up your facility.

- Since it's web-based, integration and training is easy. If you have PointClickCare® (PCC), your new patients are automatically added after set-up, or you can manually add each patient into the system.

**This tool is complimentary for our McKesson MediMart customers so sign up today or request a demo!**
